SALVADOR D. OCHAVO, JR.
Schools Division Superintendent
Capiz Branch
Department of Education

Greetings!

We are the U.P. Pre-Medical Society, a duly recognized, university-wide, socio-academic organization in the University of the Philippines, Diliman. Since 1956, the Society has spearheaded community-oriented projects such as medical-dental-circumcision missions, outreach programs, blood drives, and donation drives. With a unique application process and holistic pre-medical training, the Society seeks to extend this sense of community to aspiring medical students and beyond.

For our organization's 65th anniversary, the U.P. Pre-Medical Society aims to launch **Liwayway: MedCon 2021**, a **two-day medical convention** with the goal of enjoining the youth, specifically senior high school and undergraduate students, in the pursuit of medicine. This event will be held on **April 17, 2021 and April 24, 2021 via Zoom and Facebook Live**. It will feature speakers from various medical fields, namely renowned medical students and licensed general practitioners or specialized physicians, who will share their advice, insights, and real-life experiences on their respective medical journeys.

In line with this, we would like to request your institution to **formally endorse such an event to different Senior High School Departments under your Division, to be disseminated to SHS Students**. We believe that given the public health situation that we have now, it is very important that aspiring medical professionals of the country are guided and have knowledge on the necessary steps to take in their future career.

Should you agree to endorse it, here is the registration link for the event: tinyurl.com/MedCon2021.

Attached to this email is our [Formal Letter](#), [University Recognition letter](#) signed by the Vice Chancellor and our [Event Primer](#) with the details and program flow of the event. If you have questions and other concerns, please do not hesitate to contact

us through this email or through my mobile number below. Thank you and hoping for your favorable response.

Respectfully,

Gabriela Oreta
