**SUB: REQUEST OF EVENT ENDORSEMENT (INTERNATIONAL HYBRID CONFERENCE ON SPORTS COACHING AND TRAINING 2022)**

Dear Dr. Ledesma,

Good Day!

"We Shape the World of Physical Education and Sports"

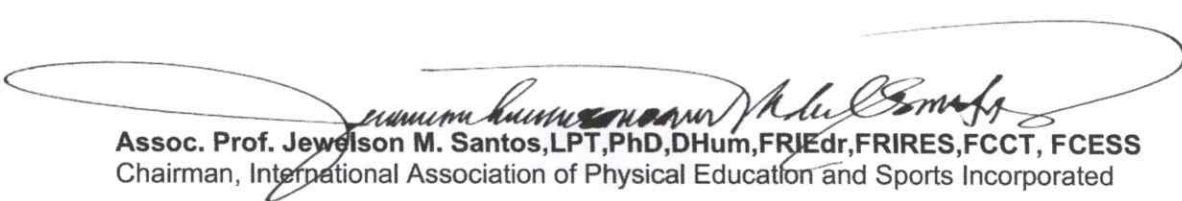

The International Association of Physical Education and Sports, we endeavor to become the leading voice at the intersection of physical education and sports. We hope to use this voice to unite, challenge, and inspire the next generation of leaders to improve the lives of professionals and to act as stewards of the best practices in physical education and sports industry as a whole. Advance cutting-edge physical education sports-specific research, educate current and future physical education and sports professionals, improve the physical and emotional lives of professionals, and harness the power of physical education and sport to inspire positive social change.

We are happy to announce the conduct of an International Hybrid Conference on Sports Coaching and Training to be held in University of Makati on December 12-14, 2022. This is jointly organized by International Association of Physical Education and Sports Incorporated in collaboration with Philippine Sports Commission, University of Makati, Batangas State University and Thaksin University. The aim of this conference The aim of this conference is to bring together leading academic scientists, coaches, sports professionals, physical education teachers/experts, researchers and research scholars to exchange and share their experiences and research results on all aspects of Sports Coaching and Training. It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Sports Coaching and Training. The conference will focus on thru areas namely: Sports Psychology, Sports Nutrition, Sports Medicine, and Strength and Conditioning, thru this it will enable our Coaches, Sports Professionals, Educators, and Researchers to update and innovate the mechanism of developing world class athletes.

As we envisioned the upcoming years, we can see that sports coaches and professional productivity will be striving to emerge in the intellectual body of the discipline. Thus, on behalf of the organizing committee, we would like to humbly ask your good office to endorse this concern or any form of endorsement that you can provide.

Hoping for your kind consideration.

Respectfully,

  
**Assoc. Prof. Jewelson M. Santos, LPT, PhD, DHum, FRIEdr, FRIRES, FCCT, FCESS**  
Chairman, International Association of Physical Education and Sports Incorporated

## **INTERNATIONAL HYBRID CONFERENCE SPORTS COACHING AND TRAINING**

***Sport Transformed: Thriving in the Face of Adversity***

**December 12-14, 2022**

### **RATIONALE**

Coaches have a critical role in increasing sport participation and improving athlete and team performance. According to international standards Coaches' guide youngsters, players, and teams in recognized and domestic athletic disciplines. Millions of people volunteer and work part-time in approximately 200 nations. Millions of people benefit from the services of full-time coaches. Coaches contribute to the development of athletes in addition to their primary duty as individuals, teams as cohesive groups, and communities with a common interest. Coaching may also help to achieve social goals by encouraging physical exercise and good health bringing individuals together under a shared cause; and fostering economic activity through employment, education, equipment acquisition, facility utilization, and participation in events.

Coaching is experiencing its most exciting period in history. Coaches confront increased demands from their players while working with more diverse communities. Parents, administrators, and supporters of their players. Coaches must perform a range of responsibilities, including instructor, mentor, sport psychologist, and business manager. At higher levels of play, coaches are encouraged to focus on good interaction and total athlete development rather than just the win-loss record. In the digital era, information is more easily accessible and visible to a bigger population. All of these things combine to make coaching more fun and demanding than ever. As a result, coaches provide a significant beneficial resource for activating and mobilizing youth and athletes in a range of sports. Volunteerism and the market economy fuel much of this work. To varying degrees, governments, federations, and other organizations engage in coaching, and this paper will strengthen the type and emphasis of such commitment. Coaches must always work to develop and enhance their talents on an ongoing basis in order to completely satisfy the demands of the athletes they serve. Coaches owe it to their employers to provide them with enough resource educational foundation, philosophical attitude, and resources to carry out the responsibilities anticipated from them. Coaches that receive this type of assistance will become even more prepared. to adopt an athlete-centered perspective. In recognition of their significant contribution Coaches should improve their competence and effectiveness in sport delivery. The accomplishment of agreed-upon goals with their athletes

The aim of this conference is to bring together leading academic scientists, coaches, sports professionals, physical education teachers/experts, researchers and research scholars to exchange and share their experiences and research results on all aspects of Sports Coaching and Training. It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Sports Coaching and Training. The conference will focus on thru areas namely: Sports Psychology, Sports Nutrition, Sports Medicine, and Strength and Conditioning, thru this it will enable our Coaches, Sports Professionals, Educators, and Researchers to update and innovate the mechanism of developing world class athletes.
