Dear **Dr. APOSIN:**

This refers to the GSIS Wireless Automated Processing System (GWAPS) stand-up kiosk currently installed in the DepEd Division of Capiz. Due to wear and tear after long years of service, the Kiosk is no longer functioning and beyond repair. Thus, Roxas Branch is constrained to permanently pull-out the GWAPS Kiosk.

With the advent to technology, GSIS will now shift to digital platform, we advise you to inform GSIS members in your office to transact more conveniently with the GSIS through the **GSIS Touch** -- a 24/7 mobile application that functions like a virtual frontline.

Through the GSIS Touch, they may apply for loans and claims. It provides them instant access to GSIS membership, insurance policy, and pension records. They may also keep track of their premium remittances and loan payments. Requests for the Annual Pensioners Information Revalidation (APIR) may also be done using their smartphones since the app now recognizes facial image. The app may be downloaded by scanning the applicable QR code below:

Our representative, IT Officer Norman P. Mutas will visit your office for the pull-out of GWAPS Kiosk.

Thank you for understanding.

Very truly yours,

EDEL MAE P. MAGBANUA
Branch Manager
